READ ME NOW

FOR UPDATED INFORMATION ABOUT WING COMMANDER® IV

The README.TXT file contains updated information about the game and documentation. To view the README.TXT file, type EDIT README.TXT from your CD-ROM drive (usually D:). If you are using Windows, double-click on README.TXT.

WINDOWS 95® INSTALLATION

- Insert CD #1 into your CD-ROM drive.
- Begin installation by double-clicking on MY COMPUTER, clicking on the CD-ROM drive icon, and then double-clicking on the WC4.EXE file. A WC4 icon will be created on your desktop. Clicking on this icon will begin the game.
- If the WC4 icon does not appear on the desktop, follow step 4 on page 22 of your *Installation Guide*.
- If the WC4 icon does not begin the game, follow steps 5 - 14 on pages 22 - 27.

CORRECTIONS

- **Page 9 of the Installation Guide.** If you select COPY FILES TO HARD DRIVE, you can select COPY OBJECT FILES (13 MB), COPY MISSION FILES (5 MB) and/or COPY GAMEFLOW FILES (21 MB). You can select more than one.
- **Page 10 of the Installation Guide.** MEMORY. *Wing Commander IV* uses 400K (409,600 bytes) of conventional RAM (base memory) and 7000K (7,168,000 bytes) of either extended memory (XMS) or expanded memory (EMS). You must have a minimum of 8 megabytes of RAM installed in your machine. We recommend using an XMS setup for machines with only 8 megs RAM.
- **Page 14 of the Installation Guide.** DOS=HIGH,UMB21. There should be no 21 after UMB. It should read DOS=HIGH,UMB.
